The Charleston News.

FRIDAY, FEBRUARY 4, 1870.

NEWS OF THE DAY.

-Gold at New York yesterday closed at 20} The New York cotton market was unchanged

at 25%. Sales 1800 bales. No cable telegrams were received yesterday on account of a derangement of the wires.

-The Russian loan, recently put on the market in London is a great success. -There has been a remarkable increase in the

number of cases of smallpox in Paris. -The President has recognized Ricardo Palomino as Consul of Spain at Philadelphia. -Half of the cotton mills at Wigan, England,

which were recently compelled to stop on account of a rt:ike among the operators, have resumed work. -A sharp debate took place on Tuesday in the Corps Legislatif on the decrees for temporarily

admitting iron and cotton fabrics. On a vote being reached, the government was sustained. -The United States and Mexican Joint Commission, for the settlement of claims, adjourned on Monday last, to meet again the first Monday

in June, 1870, when all cases on the docket will be adjudicated. -Rumors of the death of the Pope were again current in Paris on Tuesday. It has been ascertained, however, that his Holiness has been afnicted by an epileptic fit, and that his illness is

-The Kansas Senate have passed a concurrent resolution asking President Grant to recall Hugh Ewing, Minister to the Hague, denying that he is a resident of Kausas, and charging him with supporting the heresies of Andrew Johnson.

-The decision of the Supreme Court affirming the validity of the Missouri test oath produced considerable surprise in St. Louis. At Jefferson City quite a sensation was produced when the action of the court was announced in the Legisla-

-It was the invariable custom of Mr. George D. Prentice to rise early in the morning-some hours before his younger associates were awakeand to begin at once the labors of the day. That was the "invariable custom" of nearly all the editors of Mr. Prentice's day and generation. Now they anticipate the day by working all himself into a "committee of the whole,"

-William E. Matthews, a colored man, has been appointed to a clerkship in the contract office of the Postonice Department. There are several colored route agents in the Southern States, but this is the first instance of the appointment of a colored man to a clerical position in this department. There are now about twenty colored clerks employed in the several govern-

ment offices in that city. -William Garrison, of Plattekill, in the lower part of Ulster County, New York, committeed RIGHTS. icide in the most horrible manner on Thursday afternoon last. He was found by his daughterin-law in the act of trying to disembowel himself with a large dull table kuife, and had already terribly mutilated his person. Medical aid was called in, but he died in about half an hour. Mr. Garrison was about seventy years old, and leaves, It is said, a fortune of \$250,000.

-Before the recent excitement in Paris, says a correspondent, the American colony there, especially recent importations, have shown the usual avidity for a court presentation. The serious questions in these affairs is the decollette feature for ladies past their youth, and of lean habit. have no pearls or diamonds to cover the bone and the shrivelled desh, the rule is exceedingly vexa-

Lious. So say the ladies.

—Olive Logan has been "interviewed" in Chicago, and express s her opinion of Prince Arthur as follows : "Prince Arthur is a little Eng-Hsh snob. I saw him ten years ago, when a boy, with his mother in London. He had on a Scotch suit. I am much pleased with the action of Bos-At was very dignified. The people who toady to him now will sur ly be cut if they meet him in England. That is the way with all the English aristocracy in this country. They eat all the good dinners they can get, and cut their friends over

-Between Albany and New York navigation may be said to be entirely open and free. A considerable quantity of broken ice has lodged at zwo or three points, including Hudson, Kingston, Low Point, West Point and Peekskill Bay, but this forms no impediment to the passage of vessels. Sunday and Sunday night a number of steamers, towboats and barges and sailing craft were passing up and down. On Monday the tug of the South Carolina Railroad Company, Mable, from Albany, with a tow of barges, passed West Point bound to New York. Between Newbarg and New York the water is nearly clear of ice, and all kinds of vessels are plving.

-Don Platt thus describes the personal ap pearance of James Fisk, Jr., while before the "rold corner" investigating committee at Washington: "Fisk, Jr., rolled into the committee with the life and uproar of a steamtug. His short, fat person was set off in the loudest of clothes. A diamond gleamed from his cascade of white linen, like a head-light from a locomotive, while the road is steadily increasing. a huge cable gold chain fell in festoons from his neck, as far down as that part of his person where the leg ends and the body begins. His plaid pantaloons, of the most pronounced pattern, and the black velvet jacket were of the sort, in the way of costume, one sees in low comedy upon

-The Tarist bill, which came into the United States House of Representatives on Tuesday afternoon, met with a rough reception, and in an hour's debate, which sprung up contrary to the Intention of the ways and means, the measure got some severe blows from Allison, of lowa, on the Republican side, and Brooks and Marshall on the Democratic side. It was charged that a good portion of the free list was actually in the of the new currency bill, authorizing estabinterest of manufacturers. That although the du- lished banks to move from one State to ties on sugars were reduced, the classification was that the reduction resulted in a positive benefit to the refiners; and that while pig and scrap iron were brought down two dollars per ton, the new classification of this important interest was such that the bill actually afforded increased protection to iron manufacturers. These announcements created considerable surprise in the House, and the bill does not start out with a very bril-

till disposed of. -The Senate Finance Committee have substan-Sially agreed upon a funding scheme which has

in free consultation with the committee during | The Carolina Life Insurance Company. the past week. The views of the Secretary and those of the committee seem to have harmonized into a measure which contains several features whose practicable character will commend them to favorable consideration. The principal features of the bill are as follows: The total amount to be funded will be fixed at twelve or fifteen hundred million. The first series of the new of six hundred thousand do lars, holds a high bonds will bear five per cent, interest; to run for twenty years, redeemable after ten years. The second series to follow hereafter, when the first is taken up, after due notice, to bear four and a half per cent., to run thirty years; and the third series to follow at a still later period, to run forty years and bear four per cert., the principal and interest pledged to be paid in coin. The amount of the first loan bearing five per cent, will probably be limited to \$400,000,000, or possibly \$400,-000,600, and the time allowed for taking it up will also be limited, and announced together with the positive notice that no further sum will thereafter oe offered bearing so high a rate as five per cent. banking law will probably be so amended as to adopt the basis of circulation to the rates of interest borne by the new four and a half per cent. isting banks, but without interfering in any way with their control over their own five-twenties or other six per cent. United States bonds, now in pledge to the department. They will be left free to take up their present securities, and to surren der their circulation, if unwilling to continue to bank upon the amended basis of eighty per cent. circulation to the par value of the new bonds, in place of ninety per cent, of the old. The bill will be reported to the Senate as soon as the Currency bill, now under consideration, is disposed of.

The Temper of the People.

The tone of the political articles in the columns of the country press is decidedly opposed to any attempt at the formation of a "third party" in the coming canvass. And the groundwork of their argument, as already explained in this paper, is the simple fact that when the civil and political rights of the colored people are frankly admitted, as we admit them, there is nothing to divide the people of the State-no issue upon which to make any other-contest than a square stand-up fight between honesty and dishonesty, ignorance and intelligence, a good government and a bad government.

What we want, says the Newberry Herald is a change in rulers, and a change for the better. The issue, says the Columbia Guardian, will no longer be black man or white man, but the welfare of the State. We should look now, says the Greenville Enterprise, to our local interests, agitate party less and discuss more our particular affairs. The Cheraw Democrat takes up the refrain, and says that a sincere and persistent advocacy of justice to all, and a faithfal. honest and economical administration, is all that we now require. What we must do, says the Union Times, is to cast around us for upright, educated officials, and unite the honest of all parties with us. The same journal tersely says, "Opposition to Official "Dishonesty" is the platform upon which white and black may unite and join hands. Let us, says the Orangeburg News, make a grand, united and practicable effort to secure a sufficient number of colored men, freed from the shackles of party, joined with the white men who are opposed to Radical corruption and usurpation, to carry the elections in October next. And the Carolina Spartan says it would be a happy day for our country if every citizen would resolve and select his men and measures with a sole view to their merit.

We might multiply extracts and quotations from the articles of the State press; but it is sufficient now to say that all the State papers-with not more than two or three exceptions—are urging the people to unite in one grand rally upon the broad and simple platform of Honest Government and Equal officials, low taxes, and an economical ad-

Citizen Revels.

The Baltimore Sun says: Some of the Republican journals in the West are discussing the question whether Hiram R. Revels, the colored senator elect from Mississippi, is entitled to a seat in the Senate, in view of the declaration of the constitution that no person shall be a senator who has not been nine years a citizen of the United States. It should be remembered, however, that the The court rule requires bare neck and shoulders, Fourteenth Amendment was proposed by the but for those who are of Pharaoh's lean kind, and Radicals for the purpose of removing the bar to negro citizenship. It declares in its first section, that 'all persons born or natural-"ized in the United States are citizens of the "United States." The ground the Senate will take in the case of Revels, if any question is raised, which is not at all likely, will be that when the Fourteenth Amendment ton in declining to give him a public reception. says that "all persons born or naturalized "in the United States are citizens," it means that "persons naturalized in the United "States are citizens from the date of their "naturalization, and persons born in the "United Stated citizens from the date of "their birth."

> South Carolina Pailroad Con pany.

We are authorized to state that at the regular meeting of the Board of Directors held on Wednesday last, it was determined to begin the payment of quarterly dividends in July next.

This announcement will be received, we are sure, with great satisfaction. The road has been rebuilt and is in fine order; the rolling stock and motive power are thoroughly efficient; the debt of the company has been amicably adjusted, and the business of

It has alw ys been the earnest and laudable desire of the directors to resume, at the earliest moment possible, the payment of dividends, so that the stockholders may realize some return from their investment, and, in accordance with this settled principle, the board have taken the prudent step now brought to the attention of the public.

"Carper-bag" Currency.

The Washington correspondent of the Baltimore Gazette suggests that the section another, is "neither more nor less than to "introduce in the secondary sections of the "country the carpet-bag principle in the bu-"siness of banking, as it has been success-"fully practiced politically."

We say, let them come. More capital, more money is what we want, and it may itant prospect of success. It is to be taken up on as well come in a carpet bag as an express February 15th, and considered from day to day wagon. We scorn the carpet-bags which come empty and go away full, but are ready to admire the carpet-bags which come full the approval of Secretary Boutwell, who has been and go not full away.

Mr. Jefferson Davis has finally accepted the position of President of the Carolina Life Insurance Company, of Memphis, Tennessee, a company which, with an annual position among similar institutions in the

South and West. Apart from any consideration of duty, which may have but little weight in commerce and trade, it is a sound and sensible policy to encourage, in every possible way, the formation and development of home in stitutions. It may be taken for granted that where the price of a commodity is less in the North than in the South, or where the commodity can be had of a better quality at the same cost, no patriotic feeling will induce the mass of consumers to make their purchases at home, in preference to obtaining them upon better terms abroad. This is only natural. But when the same advantage is offered by both Southern merchan and Northern merchant, when a Southern association offers the same rates and the same security that are offered by the Northern as sociation, it is wise and politic to spend the money at home and to give the preference always to the South.

Need any more be said to commend the Carolina Life Insurance Company to the people of the South? In solvency and liberality it is the equal of any like institution in the country. It bears the name of our own State. And at its head is the patient and indomitable man, upon whom all eyes were fixed during five eventful years of war, do feat and suffering. Mr. Davis has a claim upon our active sympathy, upon our practi cal gratitude, and we have now before us: plain and simple way of proving that our President is not forgotten, that we still remember with love and respect him who suffered so grievously for our faults-the man whose life is an epic poem, and whose epitaph, like Emmett's, shall not be written until his people are free.

Friends In Conneil.

THE Workingmen's Assembly of the State of New York, now in session at Albany, have not as yet arrived at any conclusions of interest to the public. The time has been spent in hearing reports read, in the presentation of resolutions, and in debate. Committees were appointed to confer with the members of the Legislature and present the arguments for the passage of certain laws, to wit: bills to protect the lives of mechanics engaged in erecting buildings, to secure the safety of the engineers of stationary and locomotive steam engines, to constitute eight hours a day's labor, to change the conspiracy laws in reference to strikes and to trade convicts at trades, to regulate apprenticeships, to forbid the packing of sugar, flour at its last session was engaged in listening to addresses from its members on subjects relative to the general good of the workingmen of New York State.

The Platform.

The Columbia Phienix says that, what ever differences of opinion there may be on minor points, we must agree that "political reform is demanded, and that industrial "progress is essential," and closes its article with these words:"

"No party can succeed, and ought to suc ceed in South Carolina, that does not promise a progressive, industrial programme, and a thorough political change, involving honest ministration of public affairs. These are the soints for the South Carolina Democracy and the anti-Radicals in general to make."

This is all that THE NEWS demands-such an opposition to the party in power as will give the people an honest government, low taxes and equal rights.

THE New York Herald makes a sharp point in regard to the Southern States being required to ratify the Fiftcenth Amendment as a condition of restoration to the Union. As they could not be trusted to come in and then ratify it, they ratified first and then came in. They were, therefore, not in the Union when they acted on the constitution or else they were never out of the Union Either, then, says the Herald, all the reconstruction laws of Congress are invalid, or these Southern ratifications of the Fifteenth Amendment are invalid. If the States were in the Union there was no need to admit them, and if they were not in the Union they could not participate in making law for States that are in.

DRATT'S "ASTRAL" OIL

Unlike many other Illuminating Oils, is pe Unlike many other lluminating Olis, is perfectly pure and free from all adulterations or mixtures of any kind. It emits no offensive smell while burning, gives a soft and brilliantight, and can be used with the same assurance of safety as gas. Chemists pronounce it the best and safest Illuminating Oli ever offered to the public; and Insurance Companies endorse and arge upon consumers the use of the "Astral" Oli mpreference to any other. It is now burned by thousands of families, and in no instance has any accident occurred from its use; a lamp filled with it, if upset and broken, will not explode. To prevent adulteration, the "Astral" Oli is packed only in the Guaranty Patent Cans, of 1 gallon and 5 gallons each, and each can is sealed in a

and 5 gallons each, and each can is sealed in a manner that cannot be counterfeited. Every package with uncut seal we warrant. Be sure package with uncut scal we warrant. Be sure and get none-but the genuine article, Pratt's "Astral" Oil, for sale by dealers everywhere, and at wholesale and retail by the proprietors

feb3 3 CORGO SUGAR AND REFINED

We would invite the attention of Planters to the consideration of some of the advantages in the cultivation of SORGO as a Crop, which are, the small amount of labor; the hardy character of the plant in its ability to endure, without ma-terial injury, both drought and wet; its freedom from the attack of worms; its early maturing, and the fact that the Seed and every part of the and the fact that the Seed and every part of the plant is of great value.

In consequence 3, the imperfect method hitherto adopted in preparing the Julee of this Cane, there has arisen a prejudice, and the belief that Sugar could not be produced, but only a very inferior Syrup. But, by the discovery of the Southern Process, these opinions have been completely reversed in the minds of all those who have examined and tested this Process, as they realize that not only pure Syrup, superior to the best Chemical Syrups of the Refineries, is produced, but also Sugar equal to the best New Orleans, in such quantity, as to make it without

deans, in such quantity, as to make it without doubt, the most profitable crop that can be plant-ed. Of these facts abundant evidence can be shown.

Any information on this subject can be obtained by applying to Mr. F. G. CART, Charleston, S. C., who has been appointed our authorized Agent, and who will be prepared to furnish pure Imphee Seed and Machinery. Or to ourselves at

PASSMORE & WILHELM,

THE SOUTHERN PROCESS OF MAKING SUCAR AND REFINED SYRUP FROM SORGO CANE. Having been appointed by Messrs. PASSMORE & WILHELM, of Greenville, S. C., Agent for the Southern Process, of manufacturing Syrup and Sugar from Sorgo, I will three pleasure in giving any information that may be desired in relation to the cultivation of the Cane or the Process of manufacture, and will be prepared to furnish pure imphee Seed and all the Machinery.
